FEATURED PROJECT 1

BELSBY HAS MOVED! 2

JOINS US AT THE ERWOW CONFERENCE 2

Featured Project: Ridge View Estates

Belsby Engineering is currently in the last stages of finalizing this impressive development located in Lincoln County with 97 view lots overlooking the beautiful Lake Roosevelt.

Begun in early 2008, this 80 acre subdivision, owned by Whitestone Land

Management, required comprehensive planning and design to incorporate an extensive grading differential while accommodating a water distribution system including multiple well sites, a 58,000 gallon concrete water storage facility, and multiple pressure zones. In addition to the water distribution system, Belsby also designed the sewer system for the site, which included three separate septic treatment facilities, and we provided on-site construction inspection and contractor oversight throughout the course of the project.

The challenges on this project included the original topography, which required extensive grading to accommodate home sites and roads in steep terrain, and the location of the development site. As all of the contractors and consultants were from the Spokane and Coeur d'Alene region, located an hour and a half to two hours from the project, organized coordination between all of the professionals involved was a necessity to see this project through to completion.

Belsby Engineering is proud to have been a part of such an ambitious undertaking and we are excited to begin Whitestone Land Management's next project near Pateros, currently in its preliminary planning stages.

IT HAS BEEN AN EXCITING YEAR FOR BELSBY ENGINEERING AND AS WE LOOK FORWARD TO A GREAT 2009, WE WOULD LIKE TO SEND OUR THANKS OUT TO ALL OF OUR CLIENTS AND SUB CONSULTANTS FOR HELPING US MAKE LAST YEAR A SUCCESS.

Belsby Has Moved!

Belsby Engineering has relocated our offices to the historic Eldridge Building in the Carnegie Square neighborhood in downtown Spokane. The new offices provide more opportunity for growth for our company and

downtown as well as Interstate 90, making us more accessible to our clientele. If you are in the area, we invite you to drop by our new location to acquaint yourself with our facilities and meet our staff. Our offices are open Monday through Friday, 8-5, and no appointment is necessary. Our address is now:

BELSBY ENGINEERING
1325 W. 1ST AVE, STE 204
SPOKANE, WA 99201

Stop by and see us today!

Join Us at the ERWoW Conference

Evergreen Rural Water of Washington is presenting their 15th Annual Conference and Tradeshow for Water and Wastewater Professionals at the Yakima Convention Center in Yakima, WA, from February 10-12, 2009. Belsby Engineering will be one of the exhibitors where we will be showcasing our recent projects and upcoming endeavors. If you plan to attend the conference, we hope you will take the time to visit our booth and chat with our staff. We plan to have all of our designers in attendance and it promises to be a great opportunity for other professionals in the field to learn about the services our organization can offer.
